Tapisseries flamandes en Espagne

Site Internet. Espagne

For the first time, all Flemish tapestries on view and display in Spanish palaces, churches and special museums can be consulted at this website, as well in English and French. All the outstanding tapestries have now been digitized for the first time and permit their study up close and in great detail. There are also detailed catalogue entries.

This project was launched by the Fundacion Carlos de Amberes, the Minsitry of Culture in Spain and the Patrimonio Nacional oin Madrid.
